

SHAHZAMAN JATOI

Mechatronics Engineer

+92-3262217960 shahzamanghous@gmail.com linkedin.com/in/shahzamanjatoi

EXPERIENCE

Machine Learning Intern

FlyRank AI

08/2026 - Present Asia

- Developing practical experience in machine learning and AI through applied AI/ML internship work

Intern

Dawlance

07/2026 - 07/2026 Hyderabad District

- Completed an internship, gaining exposure to an industrial engineering environment

Intern

VORTEX TECH

07/2026 - 07/2026 Pakistan

- Completed a technical internship, gaining professional engineering exposure

Intern

Pakistan Airports Authority (PAA)

06/2025 - 08/2025 Hyderabad

- Completed an engineering internship with exposure to aviation-sector operations

Intern Engineer

Grid Station Qasimabad, HESCO

05/2023 - 07/2023 Hyderabad

- Assisted with transformers, circuit breakers, substation equipment, power distribution, fault detection, and load management
- Worked with technical staff to understand substations, high-voltage equipment, and regional power transmission processes

EDUCATION

B.E. Mechatronics Engineering

Mehran University of Engineering and Technology, Jamshoro

12/2022 - 12/2026

CGPA

3.61 / 4.00

SUMMARY

Final-year Mechatronics Engineering student at Mehran University of Engineering and Technology with hands-on exposure to industrial automation, robotics, embedded systems, and AI/ML. Experienced through internships and projects involving power distribution, autonomous robotics, CAD modeling, PLCs, and control systems. Skilled in C++, Python, MATLAB, SolidWorks, sensor interfacing, and robotics

SKILLS

Programming

C++

Python

Software

MATLAB

SolidWorks

Git

Automation

PLC

Ladder Logic

Motor Control

Control Systems

Industrial Automation

Robotics

Embedded Systems

Sensor Interfacing

Bluetooth Communication

CAD Modeling

Robotics

PROJECTS

Dual-Power Hybrid Bicycle | Final Year Project

📅 12/2025 - 10/2026

- Worked in a 3-member team on system design, CAD modeling, component selection, fabrication, assembly, and electrical integration
- Selected and integrated BLDC hub motor, battery, controller, chain, sprockets, and bearings
